If you have any job work bring it to the Advocate. We beat any price anywhere and will do it and do it right.

We have it that some real campaigning will be done in this county right at once. Watchout for the announcements.

Cole Hughes & Co. are still at the same old job of letting "em" go. They will let "em" out cheap if you will call on them.

The Knox Fiscal Court is in session today and will settle the route of the pikes for the county which will appear in this paper next week.

Walter Mayhew, of Hazard, son Wm. Mayhew, of this place, is very sick with Typhoid fever. We hope that he will soon be on the road to recovery.

Mr. and Mrs. C. C. Smith left Wednesday for Cincinnati and other points of interest, and took with them their two children, Boone and Diana. They will be gone for several days.

Mr. and Mrs. D. C. Payne are in Crab Orchard this week visiting relatives and eating chickens. Mr. Payne will be at his post of duty in the Arcade within the next few days.

Messrs. J. T. Black, S. H. Black, Will Black, Hays Helton, Chas. Parrott and many others of Black's Precinct, were in town several days this week. These are a set of fine fellows and we are always glad to see them come to our midst.

If you need anything to do your farming with from a hoe to a thrashing machine see T. J. Vermillion and Sons. They can fix you up on short notice and do it just right. They are in the business to serve the whole people and to make prices and terms to suit you.

Croley Hardware and Grocery Company will soon have completed the new building now under course of construction which will add greatly to the appearance of things about the public square.

Every one who can do so ought to attend the Memorial services next Sunday given by the G. A. R. These old veterans are the saviors of this Nation and they should be shown the honor that is due them. Let's all turn out with them.

COME FROM REMOTE SECTIONS OF GLOBE

Tanlac Draws Medicinal Properties from Many Points Far Away

The ingredients of medicinal elements, which comprise Tanlac, come from many remote sections of the earth, the Alps, the Apennines, Pyrenees, Russian Asia, Europe, Jamaica, Brazil, West Indies, Mountain States, near the Rocky mountains, Asia Minor, Persia, India, Russia, England, France, Germany, Mexico, Colombia and Peru, are among the points from which the principal properties of this remarkable preparation are obtained.

In the well equipped laboratory of the Cooper Medical Company, Inc., under the care of direction of Herr Joseph Trischbach, a native German chemist, these medicinal herbs, bark, and flowers are assembled in the rough and pains-takingly cleaned so as to obtain that high standard of efficiency shown by the uniform preparation Tanlac.

In sterilized bottles, made expressly for this purpose, Tanlac is placed, lake of refrigeration. The preparation is expected again and then sent for shipment to points over the world where the demand requires.

Tanlac, the premium preparation, is now obtainable in Barbourville at the Herndon Drug Company's store, 100 Main Street.

The Democrats have a mixture running for the Democratic nomination for Congress. Some are very dry, some are not moist, while others of course, like their usual bath in the "bargain". We do not have but one and that one is just right. He is not up to that kind of stuff that it takes to make a General to suit the whole people.

The Masonic lodges of this and adjoining communities will have Memorial services this coming day of May. The services will be held at the First Methodist Church and after the services the graves of deceased brothers will be decorated. It is the aim of the fraternity to have services at as many other places as can be had and arrangements made decoration be given to each brother's grave.

Dr. J. S. Lock, recently yesterday from Atlanta, where he attended the convention of Health Commission and Dr. James Dr. Lock was called to Corbin and did deliver two lectures which were loudly applauded. You can not keep out of the boys from Knox County or anywhere else from the Mountains from coming to the front. They are always there with the goods and deliver them in great shape.

We do not know just what the Republican platform will look like when they get through with it, but we do hope that they will not be on the extreme upon any question. We have a chance to win in the general election and will do so if we are not dominated over by a few extremist who want to shine at such meetings, and in doing so usually spill the beans, scorch the potatoe, kicking over the coffee pot and upsetting the whole table.

Remember

We wish to call your attention to the fact that we are here on the job to do all kinds of Job Work and we wish to say that we will positively beat any man's prices on any kind of work. Let us have your Job Work.

Williams-Smith

Corbin Times

On Thursday morning, at the Methodist parsonage, Miss Mary Williams and Mr. Charles Williams were married.

Williams is the daughter of Mr. and Mrs. Alex Williams, of Coal Hill, Ky., but has been with the firm of J. D. Rowland for seven years.

Mr. Smith is a Corbin boy and has many friends who consider him a winner of the prize he has won.

The bride wore a going-away dress of dark of pussy willow with gold trimmings and a lace belt.

Rev. Vanderpool officiated the ceremony.

Mr. Smith is in business and has furnished a home to his bride to entertain Corbin during the near future.

Miss Josephine Hardener sent very original invitations ten days ago which read:

"It's a long way to Tipperary, but you don't have to go. You won't miss a miscellaneous note to the sweetest girl I know. Think up a pretty present and let time prepare, it's not far away. The house and Miss Williams will be there. Hotel House, Corbin, P. M., May 14, 1915. The visiting guests were equipped with razors, magazines and written suggestions for the filling a book which when completed will be a illustrated biography of Mr. Williams. As the guests passed through the magazines in an effort to find a picture suitable for her birthplace or their residence, the girls grew sentimental and the married women were moved. When the book was completed a list of pertinent and personal questions such as "How do you?" "What is your heart's desire?" which to usually [?] answered were signed and given Miss Williams as souvenirs.

Little Miss Elizabeth Belt, in the costume of white embroidery and a ribbons brought in a white crepe covered wagon filled with gifts, candies, and so handsome that a girl remarked that if all the others were like this she hoped it would be rainy weather when she married. After the gifts were distributed, attractive refreshments were served.

Miss Hardener was assisted by Mrs. Lurene Bell and Mrs. Edith Bell. Those present were: Messrs. Payne, Stivers, Priddy, and Edwards. Misses Rowland, McKeahan, Bryant, Nevis, Williams and Hemphill.

OPENING UP NEW TIMBER

The Asher Lumber Co. of Freeville under the supervision of Geo. W. Hingst of Cincinnati have a bunch of men up in what is known as "Wolf's Pen" building a tram road to the top of the mountain to connect with road leading over into Harp's Creek, where Judge Asher owns a big boundary of timber that he is going to have sawed, which will give employment to quite a number of men and means much for Little Brush Creek.

IT'S HARD TO MARRY IN WARREN

Not speaking from experience but from observation, getting married in Warren is some job.

Last week two young couples made all preparations to get married and the young men went to Barboursville and got their license and after two days of searching from Artemus to the head of little Brush Creek, they were unable to locate a person and as a last resort one of the couples started to lose it across the mountains to Middlesboro Sunday evening and when almost in despair they finally found the preacher in the forests of the mountains and at a late hour returned to Warren tired but happy. The other couple lost their enthusiasm and cancelled the wedding run for the present.

PLAYING GOOD BALL

Warren has a crack base ball team this year, has played everything on Little Brush and have won every game. The team has a sandy infield and with no more dependable pitcher could go up against anything in this part of the State. So far they have not found a team that could interest them at all and expect to go through the season without a defeat.

NEW EXTENTION

It is commonly reported that the Cumberland Railroad Company is planning to extend their line on to Jellico in the future. The road is graded nearly all the way and the heaviest cost of such an extention has already been paid and the building of this proposed line will open up a lot of new coal and timber land and will increase the value of the large immensity. It will mean much for Knox county.

A Wonderful Healing Influence in Kidney Troubles

WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body.

In perfect health we hardly realize that we have a network of nerves, but when health is failing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreadful sleep, irritability and unless corrected, leads straight to a breakdown.

To correct nervousness, Scott's Remedy is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.
